To Whom It May Concern:

I am appealing the Funding Commitment Decision Letter for St. James School for Funding year 2003. The CC Docket No. is 02-6. The date of the FCDL is May 1, 2003. The Form 471 Application Number is 340144. The Funding Request Number is 916594. The Billed Entity Number is 14828 and the Applicants Form Identifier is SLD 471 YR 2003-2004

I am basing my appeal on the fact that the requested dollar amount is for reimbursement of monies for a basic local and long distance telephone service. I have included in this appeal copies of the paid bills from July 2003 through November 2003. As you can see the bills do not have any charges for "Record/Service Order Charge." This was a one-time charge for the removal of extra phone lines at the school. I failed to pick up on the "Charge" during the filing and appeal process.

The submission of the August 2002 bill that had this "Charge" was purely a mistake on my part. I am a volunteer technology coordinator for a small parochial school in Northern New York State. This grant has allowed our small school to expand its computer program tremendously in the last 4 years. I am not a professional grant writer and manager and I hope that my error does not jeopardize our grant funding.

Upon review of the attached phone bills you will see that this entire Funding Request is for basic local and long distance telephone service in a tariff environment. There is no "Service Order Charge." Therefore, our request this year is no different than the request last year that was approved by the SLD.

If you have any questions regarding this matter please do not hesitate to contact me. Thank you for your time and attention to this matter.

Sincerely,

Frank Bush

Changes in Federal Charges

Effective July 1, 2003, the Federal Subscriber Line Charge (SLC) for single-line business, ISDN BRI, multi-line business and Centrex lines, and ISDN PRI may increase. The FCC Non-Prepaid Line Charge (PLC) for multi-line customers has been eliminated. In addition, the Federal Universal Service Fund (FUSF) surcharge may increase. The FUSF surcharge, which is authorized by the FCC and reviewed quarterly, provides funding for programs to keep local telephone rates affordable for all customers and to provide discounts to schools, libraries, rural health care providers and low-income families.

FUSF Surcharge on Other Incidental Charges - Effective April 1, 2003, an FCC-required change altered the way Verizon collects the FUSF surcharge. Beginning this month, an FUSF surcharge also applies on the PIC change charge.

If you have any questions, please contact your local business office listed on the bill.

Changes in Federal Charges

Beginning October 1, the Federal Subscriber Line Charge (SLC) for single-line business, multiline business and Centrex lines, or ISDN PRI may change. In addition, the Federal Universal Service Fund (FUSF) surcharge may also change. The FUSF surcharge, which is reviewed quarterly, helps keep local telephone rates affordable for all customers, and provides a discount to schools, libraries, rural health care providers and low-income families.

Important News Regarding Wireless Calls

Due to changes in billing arrangements between Verizon and wireless phone service providers, regional toll calls made to wireless phone numbers outside of your local calling area, but within your regional toll calling area, may be assessed regional toll charges. In addition, dependent on your class of service, you may incur a local message charge when calling wireless telephone numbers within your local calling area. You may also need to dial a prefix (*1* or *1* plus the area code). If you have any questions, please call the bill information telephone number on your bill.

Consumer Tip

During a power outage, unlike cordless phones, a hardwired, corded phone can work without household electricity. Keep a corded phone in your home.

Important News Regarding Wireless Calls

Recent changes in federal regulations have caused changes in billing arrangements between Verizon and some wireless phone service providers. Depending on the wireless number you call, you may incur regional toll or local message charges for calls made to wireless phone numbers that were previously paid for by the wireless provider. You may also need to dial a prefix (*1* or *1* plus the area code). These changes were completed in October 2003. If you have any questions, please call the information telephone number on your bill.
